

Saucon Valley Bikes was opened to offer a rider based atmosphere that was not available in the Lehigh Valley. We feel our experience as riders, will benefit you in meeting your cycling aspirations. We have stayed in our community since 1999. Since that time, we have taken steps to service our customers, such as joining a National Cooperative.

By joining we are able to offer you additional services like attractive finance offers and worry free service plans. Our goal is to give you a positive cycling experience.
