Beautiful landscapes don't stop at the topsoil. Mulches help retain moisture, control weeds, maintain soil nutrients, and help prevent erosion. As an added bonus, mulch makes a great garden look that much better.

Today homeowners and businesses can select from a wide variety of mulches. Black, brown, and red dyed mulches have become popular in recent years. Classic mulches like wood chips, hemlock blend, root, bark, and natural triple ground never go out of style. Don's Topsoil also carries certified playground mulch.
